Lebanon Valley Volunteers in Medicine  
711 South 8<sup>th</sup> Street  
Lebanon, PA 17042

Please make checks payable to **"Lebanon Valley  
Volunteers in Medicine"**

Lebanon City is identified as a 'Medically Underserved Area/ Population' and is the residence of 83 percent of the clinic's patients. Among this population, 29 percent live below the poverty level and approximately 63 percent are of low to moderate income. In 2018, approximately 12,000 working Lebanon County residents did not have health insurance and thus lacked access to primary care services. By offering free, preventative medical care to these hard-working, yet underserved members of our community, the patients miss less time from work, have fewer visits to the emergency room, and by staying healthy, workers can stay working to not only continue supporting their families, but still support the local economy.

Over the past 12 months, LVVIM has provided 7,500 treatments to 3,318 patients. Since the opening of the clinic, LVVIM serves on average 335 patients per month. In addition to the regular clinic, the walk-in part of the clinic serves on average 118 patients each month. Over the past 10 years, LVVIM has had over 500,000 volunteer hours donated and provided over 75,000 patient treatments.

## About Lebanon Valley Volunteers in Medicine

Lebanon Valley Volunteers in Medicine is a  
non-profit 501(C)3 organization, founded in  
2009 with the purpose of providing free  
primary medical care and prevention services  
to the members of Lebanon County who lack  
access to medical care due to either being  
underinsured or uninsured. We utilize the  
voluntary professional services of retired  
doctors, nurses, and nurse practitioners.  
Patients who qualify for our services receive  
not only quality primary care services but also  
prescription medications, diagnostic testing,  
healthcare education, chronic disease  
management, and specialty referrals.

For more information, visit:
