

16th ANNUAL

LAUREN "FITZY" FITZGERALD

October 31, 1984 - July 18, 2005

Lauren Fitzgerald grew up in Berks County, PA, attended Wyomissing Schools and began studying interior design at Drexel University. In May, 2004, Lauren was diagnosed with a primary brain tumor. She underwent 2 surgeries, chemotherapy and other treatments before passing away at age 20.

Throughout her fight, Lauren maintained her love of life and her dignity. She chose to live by a favorite quote from poet Maya Angelou, "I can be changed by what happens to me. I refuse to be reduced by it".

Five people received the gift of life because Lauren chose to donate her organs - her heart, lungs, liver and kidneys were used to serve those in need. Her legacy, love and generosity will live forever.

In memory of Lauren, a Foundation was created to preserve her legacy and desire to help others in need. We accomplish this by using funds raised from this event to support our Sunflower Fund, Memorial Scholarships and Brain Tumor Research.

REMEMBERING ANTHONY MYERS - HIS LIFE & LEGACY

In the Fall of 2018, at the age of 16, Anthony was diagnosed with a high-grade glioma brain tumor. This experience led to an extraordinary outpouring of support, care, and concern - and the realization that life can present difficulties at any moment. In early 2019, he founded The Anthony Myers Movement, a nonprofit organization that assists other families and children in need.

Anthony's aim was to fight his own disease while "helping others tackle problems, move past challenges, and reach goals." Anthony passed away on December 4, 2019 - but his spirit lives on through his story and the work and deeds of The Anthony Myers Movement.

"Cherish the moments you have now because you never know when your life will change." Anthony Myers
