Last Chance Ranch (LCR) is a large rescue facility located in the rural area of Quakertown. The rescue has been in operation since 1999. LCR originally started as an equine rescue, but ultimately became a rescue for both large and small animals. At any given time, there can be as many as 150 animals at this facility.

Last Chance Ranch will be hosting the race this year on the ranch property. There will be food vendors and Two River Brewery will also be at the ranch to help support our race day event. Parking will be at the ranch.

The course is a GPS measured 5K out and back on Beck Road. For those of you who are looking to PR a 5K this could be your race, as the course is flat and fast. One water station will be on the course and porta potties will be located on the ranch property near registration.
